KEYWORD SUBJECT INDEX

pilots Comparing the Cattell 16PF profiles of male and female commercial airline 91 35 1001
A macroergonomic vision of the year 2000: what in the world are we doing? 91 35 0901*
visualization: the relationship between task integrality and proximity 2D versus 3D display for multidimensional data 91 35 0388
relationship between task integrality and display proximity 2D versus 3D display for multidimensional data visualization: the 91 35 0388
interfaces Using velocity control to navigate 3D graphical environments: a comparison of three 91 35 0300
Target designation in a perspective view, 3D map using a joystick, hand tracker, or voice 91 35 0097
stereographics Enhancement of 3D video displays by means of superimposed 91 35 1457
course ABET accreditation and the human factors engineering 91 35 0532*
personnel Abilities evaluation method for military intelligence 91 35 1321
and subjective workload of computer input Effects of physical ability on working memory requirements, keystroke rate, 91 35 0261
and experienced blind listeners Limits of intelligibility of accelerated synthesized speech by inexperienced sighted 91 35 0496
An eye scan analysis of accessing product warning information 91 35 0585
Using menus to access computers via phone-based interfaces 91 35 0235
object size, display resolution Development of tactile mice for blind access to computers: importance of stimulation locus, 91 35 0708
Development of child-resistant latches to prevent child access to home swimming pools 91 35 1053
a case study in the design of a reference materials access tool Knowledge acquisition techniques: 91 35 0273
Evaluation of potential safety modifications by review of accident reports 91 35 0476
Partial attention in warning failure: observations from accidents 91 35 0603
The role of work practices in occupational accidents 91 35 1100
Visual factors in rail-highway grade crossing accidents 91 35 0600
ABET accreditation and the human factors engineering course 91 35 0532*
An evaluation of recognition accuracy for discrete and run-on writing 91 35 0359
suggest for Fitts' law Effects of age and sex on speed and accuracy of hand movements and the refinements they 91 35 0208
erector spinae muscles Toward a more accurate description of the EMG/force relationship of the 91 35 0728
Experimental evaluation of an adaptable acoustic color coding interface system 91 35 1471
monoscopic and stereoscopic video remote viewing Skill acquisition and task performance in teleoperation using 91 35 1367
Knowledge as design: a methodology for overcoming knowledge acquisition bottlenecks in intelligent interface design 91 35 1181
Target acquisition criteria for human observers 91 35 1517
affect performance? Contextual change and skill acquisition in visual search: does the rate of change 91 35 1377
Empirical comparisons of knowledge acquisition techniques 91 35 0268
reference materials access tool Knowledge acquisition techniques: a case study in the design of a 91 35 0273
flight task Active control versus passive observation in a simulated 91 35 1570
Experimental evaluation of an adaptable acoustic color coding interface system 91 35 1471
as a basis for developing cognitive engineering guidelines in adaptive automation Complex task performance 91 35 0116
exposed to perturbed camera-viewing conditions Adaptive strategies of remote systems operators 91 35 0151
Adequacy of responses to warning terms 91 35 1024
Effects of status on group decision making: ad hoc versus real groups 91 35 0969
Adoption of ATM technology by elderly users 91 35 0177
Residential fire safety needs of older adults 91 35 0172
Advanced control complex for BWR nuclear power plant 91 35 0643
Designing nuclear power plants: international perspectives on advanced control room design and philosophy 91 35 0627*
rationale Advanced control room evaluation: general approach and 91 35 1243
considerations Reclined seating in advanced crewstations: human performance 91 35 0132
"Works as advertised": observations and benefits of prototyping 91 35 0324
Alcohol beverage warnings in print advertisements 91 35 0451
product safety What's on TV? effects of televised advertising on consumer perceptions of products and 91 35 0606
system (ISMS) modeling tool Development of an AEGIS combatant integrated survivability management 91 35 1201
Workload or situational awareness: TLX versus SART for aerospace systems design evaluation 91 35 0062
Task analysis of remote afterloading brachytherapy cancer treatment 91 35 0675
Cross-sectional and longitudinal analyses of set in relation to age 91 35 0203
An analytical study of the effects of age and experience on flight safety 91 35 0180
Maximal power grasp force as a function of wrist position, age, and glove type: a pilot study 91 35 0733
Psychological distress in relation to employee age and job tenure 91 35 0185
A follow-up of the mature driver study: another look at age and sex effects 91 35 0164
and the refinements they suggest for Fitts' law Effects of age and sex on speed and accuracy of hand movements 91 35 0208
light in a field location Age and the perception of a modulating traffic signal 91 35 1130
Longitudinal analysis of age changes in speed of behavior 91 35 0198
The effect of gloves, wrist position, and age on peak three-jaw chuck pinch force: a pilot study 91 35 0753
Age-related slowing of behavior 91 35 0188*

NOTE: In the numerical codes that appear in the right margin, 91 refers to the year of publication, 35 indicates the 35th Annual Meeting of the Human Factors Society, and the four-digit number is the page number in the *Proceedings* on which the paper begins. Papers beginning on page 899 or above can be found in Volume 2 of the two-volume set.

* Abstract only.

A cumulative index to *Proceedings* from 1972 to 1987 is available from the Human Factors Society. Contact the Central Office for information.
